The Tea Board of India

Tea Board India, an independent body under the Ministry of Commerce, Government of India, is responsible for the implementation of the Government's regulations and policies. To help develop the Indian tea industry, the Board promotes tea research and exports of tea worldwide, collects and disseminates statistical data as well as encourages labor welfare programs, among a host of other activities all aimed at ensuring the health and vibrancy of the world's largest producer of tea.

Tea Board India is headed by the Chairman, N. K. Das who was appointed by the Government of India. The Board was established in 1953 by an Act of Parliament, is headquartered at Calcutta and this year celebrates the completion of its 50th year.

Henry P. Thomson, Inc.

Established in 1912, Henry P. Thomson, Inc. is one of the oldest and largest tea importers currently operating in the United States.

Our headquarters are located in New Jersey, but we maintain purchasing offices in Hefei, China and Obera, Argentina. For those origins where we do not maintain our own offices, we either correspond directly with the producers or have an exclusive relationship with an exporting agent.

While many of our clients prefer to purchase container load quantities delivered directly to their facilities, we also maintain sizable inventories at public warehouses in New Orleans, LA, Elizabeth, NJ and Rotterdam, Netherlands. This allows for smaller deliveries and also enables us to guarantee product quality and availability for our larger customers.

If your firm is currently buying tea, or is planning to do so in the future, you could have no partner better able to help you establish and maintain quality parameters, secure a consistent source of supply and provide for timely delivery of your product.
